Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Process Ownership <i>Who is in the lead on this?</i>	Frontend Developer (User Interface & Navigation)	Backend & NLP Processing Module (Speech Recognition, Concept Analysis, Feedback Generation)	Student / Learner supported by the AI-based Evaluation System
Opportunities <i>How can we improve this stage?</i>	• Add a demo video explaining how the system works. • Improve UI with interactive illustrations. • Provide sample concept explanations.	• Display live speech transcription while recording. • Improve microphone guidance and error handling. • Support multiple languages and accents. • Allow users to review and edit transcripts before submission.	• Explain why concepts were marked as missing. • Recommend learning resources based on weak areas. • Track previous performance and show progress over time. • Generate downloadable performance reports
